RADC Area Communities

FROM: 2023 RADC Board Members

RE: 2024 RADC MEMBERSHIP

As we complete our 37th year as an organization, it becomes very clear that the concept of area communities working together to achieve a common goal of community and economic development is necessary. This is the very foundation that the Redwood Area Development Corporation was founded on back in 1986 by the original 20 founding board members.

As of 2023 we exceeded assisting member communities in receiving over \$93+ million in grant and loan funds received over 37 years of operation. These funds have been used to improve infrastructure – water/sewer/railroad, housing, parks, schools, health care, social services and fire departments, provide gap financing for businesses in your communities, and other economic and community development opportunities. This type of public/private partnership is why the RADC has been successful over the years in assisting you, our member communities and businesses.

As a **non-profit organization**, your support is important for your community and the RADC. In order for the RADC to continue serving your communities with professional staff, keep confidentiality, and have the resources necessary to assist member communities, it is important to have the financial support of your community membership. **Enclosed is a 2024 RADC membership invoice and is not due until after the first of January, 2024.**

Our strategic focus areas that we partner with your community on are:

- A. Community specific projects: As staff we are your extended staff to provide professional expertise. We have the experience and proven track record and we understand the importance of client confidentiality. We are here to assist you with infrastructure grants/loan requests, Small City Block Grant application for housing/mixed commercial rehab, or fire grants. We work with your loan clients in a confidential setting and make a recommendation to your committee/EDA regarding funding requests. We are your local resource for non-profit assistance, fiscal management, and support for your special projects.
- **B.** Business Retention Visits: RADC partners with local EDA and conducts business visits with existing businesses to learn more about their business needs in their communities.
- **C. Grant writing:** RADC staff provide on-going grant writing expertise needed to secure funds for community and business projects including renewable energy application such as REAP and PACE.
